PIR RECESSED SENSOR SWITCH 220-240V AC, TIME: 12SEC-10MIN, 4-6M, LIGHT CONTROL

SKU: SENSOR-PIR-REC

SPECIFICATION:

Categories: [Electrical Accessories](#)

This product adopts a good sensitivity detector as it utilizes the infrared energy from humans as a control signal source to switch lights on and off. By the use of this PIR Sensor, considerable energy can be saved by switching off the lights when the space is not in use. Savings are huge in larger facilities.

- Detection range of 360 degrees.
- Has a timer for adjusting the lights on longevity.
- IP20 rating for indoor use only.
- Lux detection control.
